

VEHICLE SETUP

TO PARTICIPATE IN CLUB OUTINGS VEHICLES SHOULD BE EQUIPPED AS FOLLOWS.

ESSENTIAL

1. Vehicle must be roadworthy and registered as per R.T.A. regulations.
2. The Driver must hold the appropriate license as required by R.T.A.
3. The Driver must advise the Trip Leader if they have any reservations as to their vehicles capabilities or their own.
4. Recovery points (tow hooks) be fitted front and rear. Heavy duty tow bar or Hayman Reese hitch at rear will be OK.

RECOMMENDED

1. Snatch strap suitable for the weight of vehicle.
2. "D" shackles and or "Bow Shackles".
3. Drag Chain suitable for weight of vehicle.
4. Tow Rope or Strap suitable for weight of vehicle.
5. Most members have had U.H.F. Radios fitted.
The Club Radio Channel used is 12 on both sets. The Club has some which members can borrow for a trip. (see your trip leader)

NOTE:

A full set of recovery gear for our club outings consist of:

1. One Snatchem Strap.
2. One Tree Protector.
3. Two Bow and or "D" shackles.
4. One Pair Gloves (leather).
5. One Drag Chain.
6. One Hessian Bag.

A recovery kit can be purchased at most auto shops carrying 4WD equipment.
